

Cordis **Avanti**[®]+

Sheath Introducer in Transradial Kit

Designed for Atraumatic Sheath
Insertion in Transradial Procedures

Designed for **Atraumatic** Sheath Insertion in **Transradial** Procedures

Building on a reputation for technological leadership, and developed in close collaboration with leading cardiologists, Cordis presents sheath introducers specifically designed for use with the transradial technique.

The Cordis Advantage:

- ultra-smooth insertion
- outstanding kink resistance
- lower in-patient costs resulting from savings in staff time
- lower costs associated with potential use in the out-patient setting
- improved patient comfort
- a complete product range (sizes ranging from 4F-7F)
- reduced risk of radial artery spasm and its associated discomfort.

Ordering information

Each Cordis AVANTI+ Transradial Kit includes an AVANTI+ Sheath Introducer with vessel dilator, mini-guidewire and 21G needle.

French size	Cannula Usable Length (cm)	Vessel Dilator	Mini-Guidewire length (cm)	Mini-Guidewire Diameter (inch)	Needle	Catalogue Number
4F	11	18	45	.021	21G (38mm)	504-614Z
4F	23	30	70	.021	21G (38mm)	504-624Z
